

Seymour Bushland Park

Where the Wild Things Are

Saturday, 19 October 2013, from 4.00PM

Why? Seymour Bushland Park has been regenerating from bare cleared farm land for over thirty years. It now has 14 or more species of orchid and recently we had a visit from a 1.5 metre Goanna. Our favourite bird is the Red Capped Robin which is now making a comeback in our area.

A Bushland Park guided wildflower walk will be followed by a sausage sizzle, then an evening spotlight walk, led by Peter Mitchell and Barbara Moss, our wonderful field naturalists.

Where? Telegraph Road entrance of Seymour Bushland Park, Seymour 3660 (Driving towards Yea on the Goulburn Valley Highway just on eastern edge of Seymour, turn left into Telegraph Road).

RSVP: Contact committee on (03) 5799 0693 or via email at Kirsty-lee.mcbean@bigpond.com for catering purposes.

**Remember:
Wear good shoes, a
hat and bring water
bottle!**
