The Ruffy Community Action Group (RCAG) was formed in 2009 as an initiative by the Shire to facilitate cooperation between different community groups in Ruffy and communication with the Shire. The Community Action Plan adopted in 2012 gives as its vision the achievement of:

- a sustainable future for the Ruffy area, balancing compatible economic development with maintaining important environmental and social values
- harmonious interaction and cooperation between old and new residents, different interest groups within the community and with the responsible authorities
- a well-informed community that participates actively in matters that affect it.

Is this vision still applicable today?
