Computer Simulation and Virtual Reality Roadshow

**Purpose**

The purpose of the Computer Simulation and Virtual Reality Roadshow is to display and allow CFA volunteer members to experience possible future technologies, then provide feedback to guide the future of computer simulation in CFA.

What's on display?

The display will include:
- current computer simulation tools
- current exercise information
- concept virtual reality mobile phone technology
- concept virtual reality FLAIM System

Who can attend?

The roadshow is open to all members with no limitation on the amount of times members can attend.

Figure 1: FLAIM System

To experience the FLAIM System, participants must be senior volunteer members. Due to health and safety, junior members are unable to participate in the FLAIM System. There are limited places for the FLAIM System and bookings must be placed prior to the closing date. Limit one experience per person.

Times

The display will be open between 10am and 4pm.

If you are participating in the FLAIM System experience, you must be on time or you will forfeit your position. You must book a 'FLAIM Experience and General Display' ticket.

If you aren't participating in the FLAIM System experience, please allow 30-45mins to see the display. You will be able to see members participating in the FLAIM System.
