The solution, a licensed and fully indemnified, prompt and reliable team of operators at your disposal.

** And Best of All - It's Absolutely **Free of Charge.***

FIELD HUNTERS CLUB (SSAA)

Is a sub-club of the Sporting Shooters Association of Australia (Victorian Branch). A recognised Sporting and Hunting Organisation.

And we would like to introduce you to our “Feral Animal Control Program”.

This program came about at the request of farmers who needed professional, reliable and prompt hunters to help reduce the numbers of feral animals killing lambs, devastating paddocks with warrens and destroying trees and natural grasses as well as killing our valuable native animals. In its various forms has operated for nearly two decades throughout Victoria.

The club provides shooters dedicated to the preservation of native Australian species. Members use their shooting skills to assist in the conservation and preservation of native animals and the management or eradication of feral species. These shooters also help to not only provide a vital balance of the fragile Australian ecosystem via controlling the feral animal population; they also assist landholders in checking fences, dams and stock. Reporting back any general findings discovered whilst upon the property.

The program works hand in hand with community groups such as 'Landcare' and 'The Trust for Nature' and offers property owners a FREE, reliable, safe and efficient service, backed by a \$20 Million dollar insurance and public liability policy.

If we can assist you in any way, please contact the clubs secretary and together we can make a serious effort to reduce feral animal numbers on your property and in your district.

*We Support **Responsible Shooting**, the **RESPECT** code of conduct for Hunters and the **Safety Matters** program.*

You can help too by Reporting all Illegal Shooting.

**Please contact the Secretary
via Email to address your specific needs.**
