

## PEOPLE AND PLACES

### JACKAROO A MEMOIR BY MICHAEL THORNTON

From choirboy to cowboy....In 1967, fresh from boarding school humiliations, and having lost his father to alcoholism, gangly teen Michael Thornton was packed off to a tough sheep and cattle station to work as a jackaroo. He was to learn the wool trade from the lamb up, under a boss legendary for working his farmhands in an almost military regimen.

Tasked with the dirty, disgusting and downright dangerous jobs, jackaroos are the dogsbodies of our farms. But at Habbies Howe, in central Victoria, somewhere between castrating lambs with his teeth and hauling back breaking bags of fertiliser for no obvious purpose, Michael discovered inner strength, and the friendship and male role models he'd craved.

He also earned respect— enough to later walk into a job with the nation's most famous farmer, the Defence Minister and future Prime Minister PM, Malcolm Fraser.

Text taken from the back of his book, thanks to John Rutter for sending it in.

## CLASSIC AMERICAN DRAMA FOR NEXT FILM SOCIETY SCREENING

Friday 18th May at the Yea Shire Chambers where doors open at 6.45 p.m. for drinks and nibbles. The gritty 1961 American drama *The Hustler*, set among the sleazy pool halls of New York City, will be shown in digital format. Paul Newman brilliantly portrays an ambitious young pool hustler who learns to cope with both losing and winning, in the process being forced to accept the reality of his situation and his responsibility to others. Piper Laurie co-stars as his vulnerable girlfriend and there is a great performance by George C. Scott as his unscrupulous manager and a memorable cameo by Jackie Gleason as the legendary pool champion, Minnesota Fats.

Filmed in six weeks, entirely in New York City, it is a challenging film shot in realistic style in black and white. It was an Oscar winner for best cinematography and art direction and received seven other Oscar nominations.

First time guests and prospective members of the Society will be welcomed free of charge. Contact Jill Dwyer, on 5797 2480 or [jill.dwyer@bigpond.com](mailto:jill.dwyer@bigpond.com).

## NOTES FROM HIGHLANDS PRIMARY

### STUDENT OF THE WEEK

**Kendall** : For a fantastic effort on camp; pushing herself outside her comfort zone and trying everything, always with a smile on her face! Well done!

### Wool Shed Dance:

Julia, Robyn and I were able to meet this week and debrief about this fundraising event. We have had numerous positive emails from people who attended, congratulating everyone on a terrific night. The amount of work to organise such an event is huge and I thank all the families involved. Special thanks to Julia and Robyn .The total funds raised from the Wool Shed Dance were \$3440- an amazing effort!

### Senior Camp:

What a fantastic week we had! It was an absolute pleasure to take the seniors away and watch them participate and enjoy all the opportunities Camp Allambee had to offer. Some activities were extremely challenging and designed to push students out of their comfort zone.

## Expression of Interest Butterfly Festival Art Exhibition

Lepidoptera: This exhibition celebrates the beautiful and ephemeral invertebrate Family Lepidoptera” (Moths and Butterflies). Aside from their beauty these insects also provide critical ecosystem services such as pollination in agricultural, bush land and urban landscapes. They in turn are an important food source for birds and other fauna. Artists are invited to submit ideas for works which:

Are inspired by invertebrates such as Moths and Butterflies

May also explore conceptually some of the broader issues around ecosystem services, biodiversity, climate change, food security and changing land use patterns across Australia

Exhibition Dates: Nov 17-25, 2012

## SEYMOUR POPULATION CHANGES

1981 - Census data reports Seymour urban population as 6494 - Population remained relatively stable until the period between 1991- 1996.

1982 - Hume Freeway by-pass of Seymour, gradual closure of old highway businesses, new businesses opened in old premises

1996 - Census reports Seymour urban pop of 6294 - decrease due mostly to relocation of armoured regiment from Pucka to Darwin, railway and textile manufacturing job losses - Defence housing stock reportedly returned to Dept of Housing and used to house people from outside Seymour

1999 - Jesuit Social Services study lists Seymour as the 10th most disadvantaged postcode in Victoria

2001 - Seymour residents hold 2 meetings - first Seymour Community Plan developed, TSWW incorporated

2004 - follow-up Jesuit report ranks Seymour as 110th in terms of social disadvantage in Vic and NSW - a significant change in less than 5 years!

2005 - second Seymour Community Plan 'Seymour 2015' developed, auspiced by TSWW

2006 - Census data reports Seymour population as 6240

2007 - further Jesuit report does not mention Seymour

2012 - third community plan being developed - based on 625 'bright ideas' submitted by community, auspiced by TSWW

## HIGHLAND RAMBLERS

April's ramble was to one of the prettiest spots I've seen in the Highlands, but Andrew should have warned us to bring ropes and hobnailed boots! It started off innocently enough with a gentle stroll along the old coach road to the tree carved with the initials of the road builders in 1887. Then downhill towards Stony creek, the last bit being a very steep slope with loose rocks, slippery grass and nothing to grab onto but the euphemistically-named Prickly currant-bush, which really ought to be called Fiendishly spiky currant-bush. However the falls when we reached them were worth it - a sheer drop of 10 metres or so into a large tranquil pool. A scramble back out after lunch - I don't think I was the only one on all fours, ending with a stroll through Helen & Bruce's property enjoying their beautiful views.

By Louise Currie

## BITS OF BOTANY AND BIRDS

### Prickly currant-bush *Coprosma quadrifida*

I've seen Prickly currant-bushes in small numbers in various places in the Highlands, but the last rambles' walk was the only place I've seen lots, or taken much notice of them. (I think I've got all the splinters out now.) It's an untidy-looking shrub; often quite short though can grow to 2 metres, with small leaves and long spikes on the branches. In summer it has tiny red-orange fruit which are apparently quite tasty. It prefers moist conditions.
