

Using eID for Sheep Management

Making your technology work for you. Yard to office approach delivered by industry specialists.

Using eID for Sheep Management is a vital course for all those involved in the sheep industry. Developed by The Australian Sheep Industry Cooperative Research Centre, (Sheep CRC) this course provides breeders with strategic advantage within the industry using electronic identification (eID). Delivered in an environment designed to foster knowledge retention, skills development and practise change, the course outcome is to develop an eID plan whilst building skills and confidence with technology, data collection and analysis.

About the Sheep CRC

The Sheep CRC is a partnership of Australia's leading sheep industry organisations. The aim of the CRC Program is to turn Australia's scientific innovation into successful new products, services and technologies.

The Sheep CRC has a vision for integrated sheep production systems based on measurement, management and marketing of animals according to their individual merit. It is combining new and existing technologies that enable change from the current practice of managing 'the flock' to managing individual animals or selected groups of animals.

Course content

- Review the use of eID tags within the sheep enterprise
- Development of an eID plan for your enterprise
- Understand the challenges associated with eID and the solutions

- Set objectives for a sheep enterprise and evaluate its current use of eID
- Increase understanding of data capture
- Manipulate and interpret data
- Define management strategies to effectively utilise this information
- Provide the producer with resources and contacts for trouble shooting, data collection and manipulation
- Refine the use of data within the supply chain

This course is a great opportunity to gain practical skills through interaction with industry experts, regarding leading industry principles. This knowledge is immediately applicable and a great investment, that will generate long term benefits for your career or business.

The Sheep CRC has developed and licensed GOTAFE to deliver the Using eID for Sheep Workshop.

Competencies

Code	Unit of Competence
AHCWRK502A	Collect and manage data

Duration: 2 sessions over approximately 1 week

Location: Melbourne University Dookie Campus

Date: Tuesday 25th of February and 4th March, 9:30 to 3:30

Cost: \$120 eligible for Government funding
\$150 ineligible
Lunch is provided

There are no entry requirements for this course.
