

Spring Stocktake Seasonal Update

This workshop will provide a snapshot of the current season and provide information on water and feed requirements for livestock.

Topics of Discussion:

Will I have enough water in my dams this summer? *Kerri Goschnick, DEDJTR*, will show producers how to calculate current water storage levels and determine how long will it last.

How much spring growth will occur? *Raquel Waller, DEDJTR*, will discuss the pasture growth outlook for this spring.

What is a feed budget? If you are planning to feed stock over the summer a check list of what producers should consider will be provided.
